

What Is Changing

Intermountain has created a new centralized process to help caregivers know, share, and honor the healthcare wishes of the patients we serve. The Advance Care Planning (ACP) Dashboard is a third-party storage and retrieval system for all ACP documents stored in iCentra. The dashboard provides all caregivers with a single easy way to locate documents in the patient record and allows electronic creation of the UT - Provider Order of Life Sustaining Treatment Orders (POLST) and ID - Physician Orders for Scope of Treatment (POST).

Why It Is Changing

To provide all caregivers with an easy and reliable way to create, locate and share ACP documents across the system while finding a simple way to quickly know if a patient has a document on file.

Viewing Advance Care Planning (ACP) Documents in PowerChart

1. Open the patient chart, check the ACP Document indicator on the Banner Bar.
 - a. **Not Present** - indicates patient does not have Advance Care Documents in dashboard
 - b. **Present** – indicates patient has Advance Care Documents in dashboard

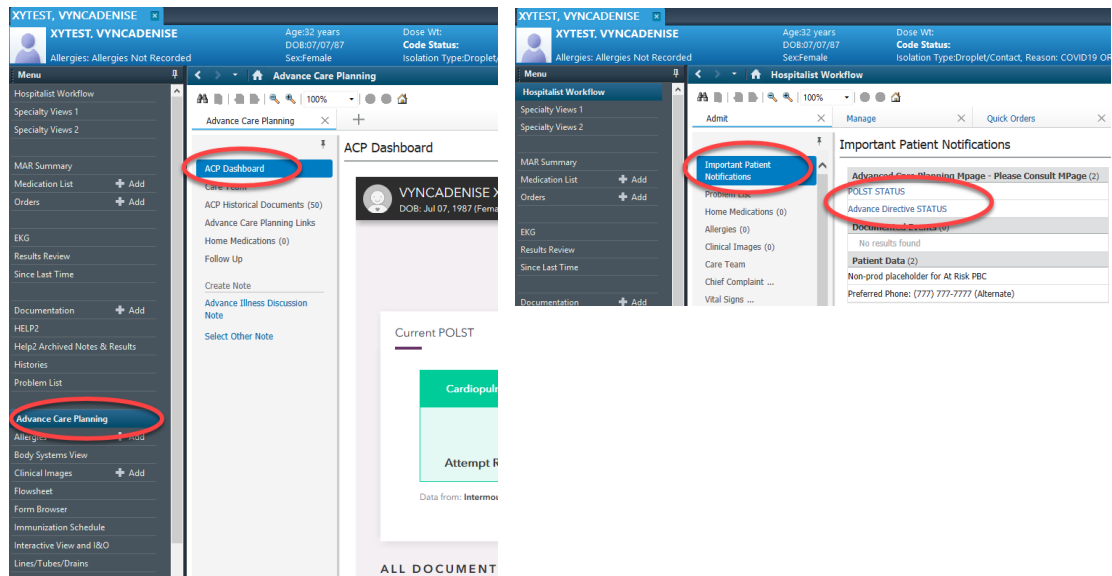

Note

Clicking the ACP link will **not** take you to the Advance Care Planning Dashboard.

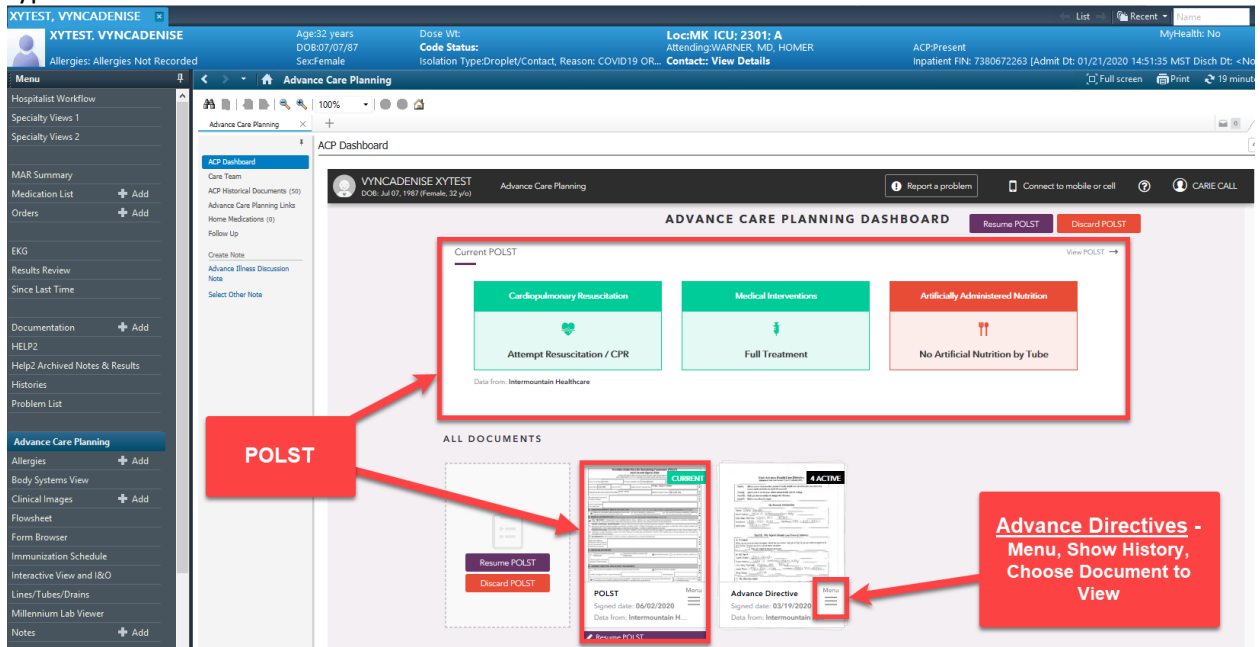

2. To open the Advance Care Planning Dashboard, you can either:
 - a. Navigate to the **Advance Care Planning** Mpage by clicking '**Advance Care Planning**' on the Table of Contents and click on '**ACP Dashboard**' component.

OR

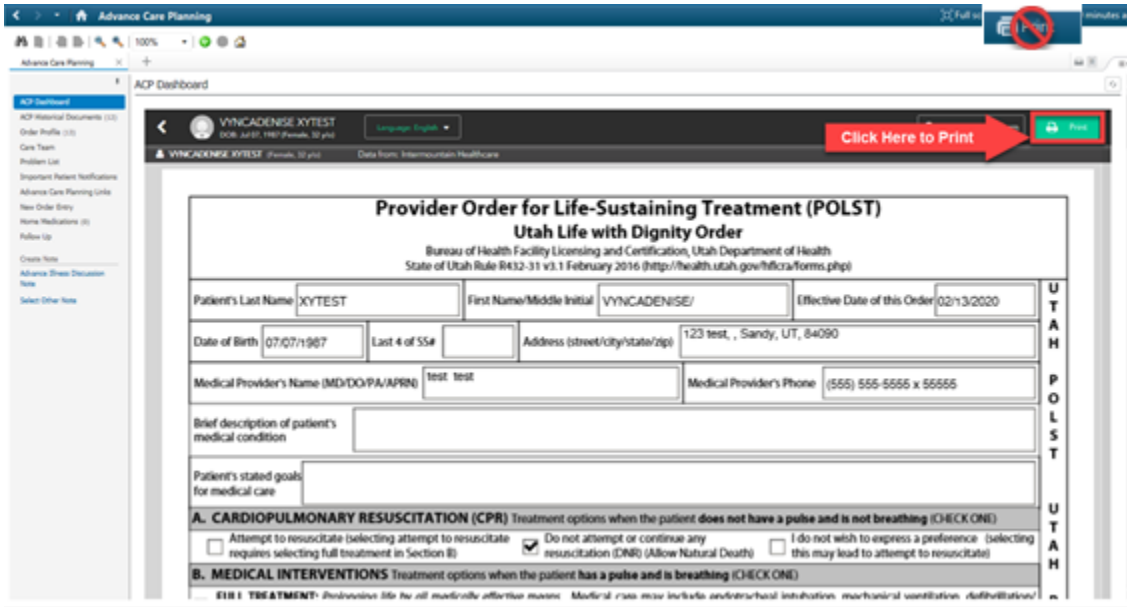

- b. Navigate to **Important Patient Notifications** then click '**Polst Status**' or '**Advance Directive Status**' links.

3. Once in the Advance Care Planning Dashboard, click on areas indicated in red to view the indicated types of documents.

- The selected document will load in the ACP Dashboard. Click green 'Print' button to print document if desired. Only use the green print button below, do not use the iCentra print button.
