

Intermountain Health User Guide - Launching Images in EpicCare Link

1. Search patient, or load patient from your patient list (If you need help on this, please refer to the EpicCare Link Reference Guide under the Quick links section towards the bottom of the EpicCare Link Home page after logging into EpicCare Link).

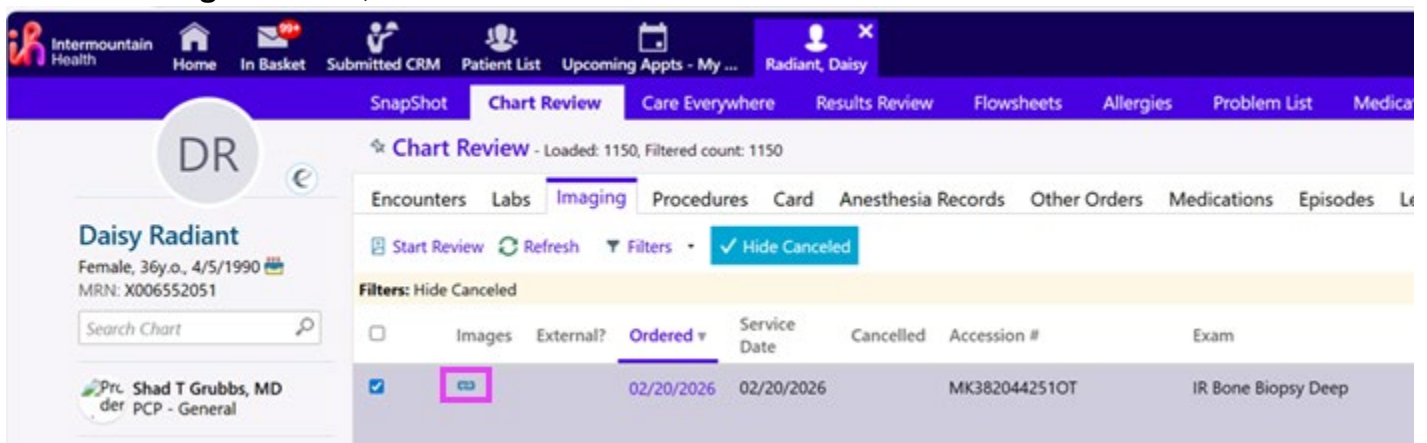

2. Click on **Chart Review** in the blue bar (second bar down from the top):

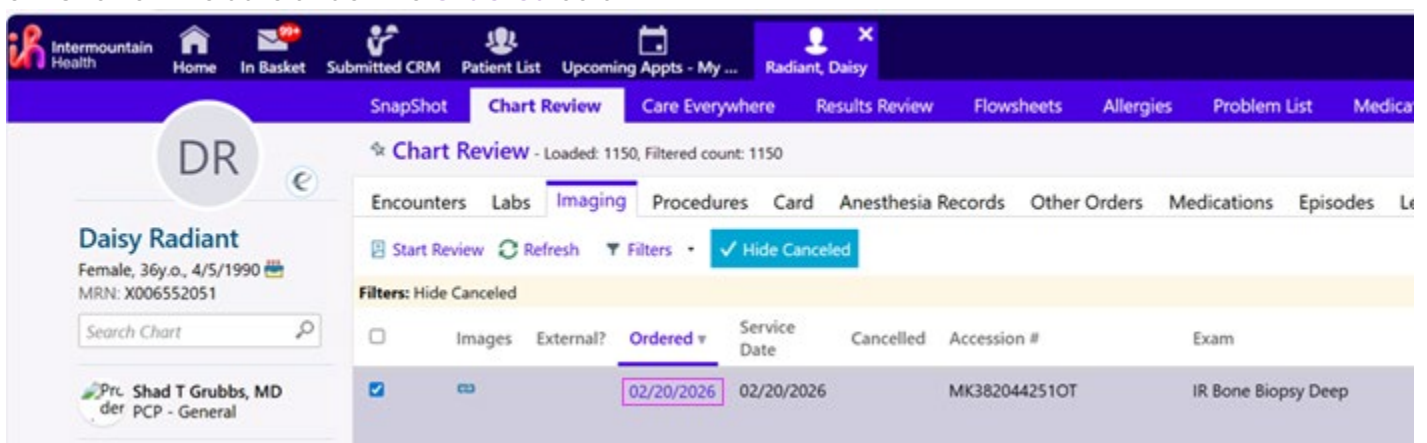

3. Click on **Imaging** in the white bar below the blue bar:

4. In the list of encounters, any encounter that has an attached image will show a chain link image under the **Images** column, as **circled** below:

5. Click on the date under the **Ordered** column:

6. You should then see the heading **PACS Images** at the top of the results page. Click the **text** starting with “Show Images for...”, as **underlined** in the example below:
