PointClickCare®

EMR Partnership Integration Solution

Agenda

- ▶ Overview
- ▶ Requirements & General Information
- ▶ Facility Submission Requests
- ▶ How to Add API Key in CareEvolve

- ▶ ELLKAY has partnered with PointClickCare to stand up LKCareEvolve ordering using LKBridge with PointClickCare APIs, and an API result only interface connection.
 - ▶ Facilities should place orders in the Lab LKCareEvolve Ordering Portal after bridging the patient.
 - Results will then file into LKCare Evolve
 - Result will be automatically transmitted to PCC patient chart
- ▶ The ELLKAY team looks forward to working with our Lab Partners on quick and seamless integrations to PointClickCare.

REQUIREMENTS & GENERAL INFORMATION

Requirements

- ▶ All ELLKAY Clients integrating to PointClickCare must be on LKCareEvolve version 4.9.2 or higher.
- ▶ Prior to facility interface submission, the facility must be added in the LKCareEvolve application.
- ▶ Facilities must bridge the patient (which will include the Patient ID) and order in LKCareEvolve.
- ▶ Patient ID must be present for the Results to match.
 - ▶ Typically comes from facility or it can be auto-generated in LKCE

General Information

- ▶ Configuration and Interface approval takes 3-5 business days from facility interface submission. Once PointClickCare approves, the facility interface is moved to a live status and billing will begin immediately.
- ▶ Round trip testing will be required for each facility integration. Facility to be engaged.
- ▶ All facilities that are included on the ELLKAY request will go live at the same time.

FACILITY SUBMISSION REQUEST

Once your Lab is visible on the PointClickCare Portal, your team can begin onboarding facilities.

- 1. Lab** to submit facility interface request to ELLKAY via the LK Client Portal
- 2. Lab** to request the Facility to login to the PointClickCare Portal and activate the Lab application.
 - Application Name will be **intermountain-ellkay**
 - Additional details can be found in this document: [PointClickCare Activation Form](#)
- 3. Lab** requests the **Facility Admin** to complete the External Facility setup found in the PointClickCare Integrations via ELLKAY document
 - External Facility Name will be **intermountain-ellkay**
 - *The facility must enter the name as it is shown here when completing the facility request to ensure proper routing.*
 - Additional details can be found in this document: [PointClickCare Integration Form](#)
- 4. Client** to send External Facility ID to **ELLKAY Project Manager**
- 5. ELLKAY** receives the submission request via email and reviews the number of facilities that the Facility and Lab submitted. All facilities included on request will go live at the same time.
- 6. ELLKAY** adds the facility to the interface and approves the request within the PointClickCare Portal.
- 7. PointClickCare** approves request.

MARKETPLACE LISTING

Contact Partner

Intermountain Laboratory Services – Powered by ELLKAY

by ELLKAY, LLC

ELLKAY understands the complexity of making connections and the challenges with Laboratory interoperability workflows. We are committed to ongoing innovation, developing cloud-based solutions that address the challenges our partners face. By partnering with PointClickCare, ELLKAY can streamline Laboratory's connections and complex resulting workflows by utilizing direct access to PointClickCare APIs and our LKOrbit Platform. ELLKAY's LKOrbit Platform provides access to clean data, easy resulting, and modern connectivity.

About Intermountain Laboratory Services

Intermountain Laboratory Services provides high-quality testing services by utilizing the latest methods and technologies to support the delivery of excellent patient care. We combine convenient draw locations, advanced testing options and an unparalleled level of service

Data Connectivity Benefits:

- ▶ Patient demographics connectivity via API to ensure clean orders
- ▶ Reduce missing information calls from laboratories

Resulting Benefits:

- ▶ Accurate patient demographics
- ▶ Results posting directly to the patient chart
- ▶ Eliminate the need to manually upload results

Implementation

- ▶ **ELLKAY technical resources** to configure LKBridge & LKTransfer and confirm accounts are LIVE.
- ▶ **ELLKAY Project Manager** will notify the client that build & configuration are complete.
 - ▶ Facilities **must** bridge the patient and enter order in LKCareEvolve.
- ▶ **Client** to add LKBridge Service Key into LKCareEvolve.
 - ▶ **ELLKAY Project Manager** will provide the Service Key.
 - ▶ Instructions for entering Service Key in next slides.

Go Live

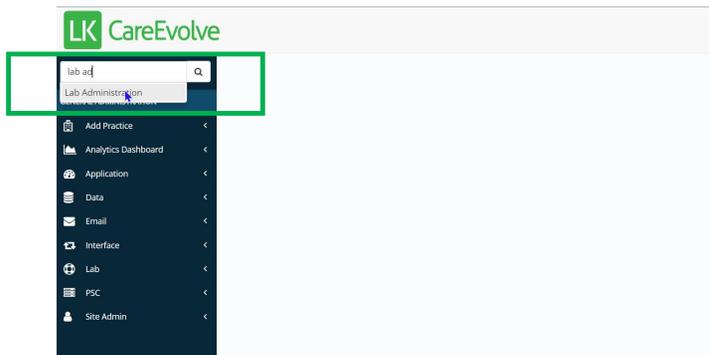

- ▶ **ELLKAY Project Manager** will notify the client of go-live.
 - ▶ Ensure Facilities are aware that they **must** bridge the patient and enter order in LKCareEvolve.

HOW TO ADD AN API KEY IN LKCAREEVOLVE

1. Log into LKCareEvolve as a site admin.

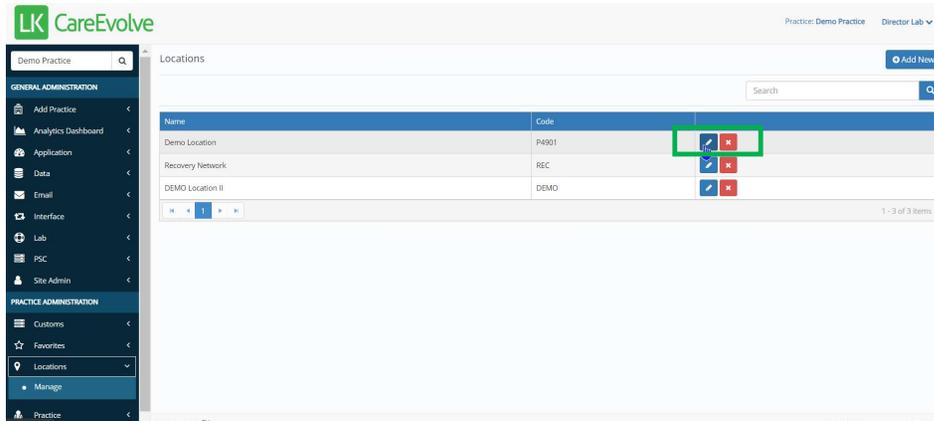

A login form with three input fields: the first contains 'demouser', the second is masked with dots, and the third contains 'lab'. Below the fields is a blue 'Log In' button and a link that says 'Need help?'.

2. Search for the Facility that will be bridging patients.

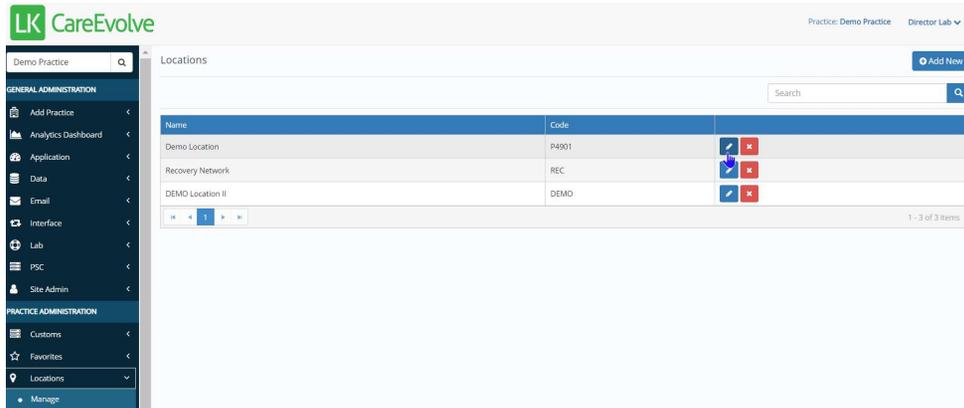

HOW TO ADD AN API KEY IN LKCAREEVOLVE

3. Select the Facility.

4. A list of location (s) will display. Select the location's edit icon.

HOW TO ADD AN API KEY IN CAREEVOLVE

5. Select Cloud in the PMS Bridge dropdown field and enter the Site Service Key provided by ELLKAY.

The screenshot shows the 'Modify Location' interface in CareEvolve. The left sidebar contains navigation options under 'GENERAL ADMINISTRATION' and 'PRACTICE ADMINISTRATION'. The main content area is titled 'Edit Location' and includes the following fields and options:

- Location Type:** Radio buttons for 'Normal' (selected) and 'PSC'.
- * Location Code:** Text input field containing 'P4901'.
- * Location Name:** Text input field containing 'Demo Location'.
- * Street 1:** Text input field containing '475 Market Street'.
- Street 2:** Text input field.
- * Zip/Postal Code:** Text input field containing '07407'.
- * City:** Text input field containing 'ELMWOOD PARK'.
- * State/Province/Region:** Dropdown menu set to 'NJ'.
- * Country:** Dropdown menu set to 'UNITED STATES'.
- County/Parish:** Text input field.
- * Phone:** Text input field with a dropdown for 'Main' and a '+' button, containing '888-322-5222'.
- Fax:** Text input field with a '-' button, containing '201-421-2004'.
- Req. Labels:** Radio buttons for 'Req. Pull-Off' and 'Label Printer' (selected).
- Required /Results Report:** Radio buttons for 'AutoGraph' and 'AutoCumulative' (selected).
- PMS Bridge:** Dropdown menu set to 'Cloud' (highlighted with a green box).
- Site Service Key:** Text input field containing 'Enter Site Service Key Here' (highlighted with a green box).
- Allow NCD/LCD ABN:** Checked checkbox.
- Allow Experimental ABN:** Checked checkbox.
- Allow Excluded ABN:** Checked checkbox.
- Allow Frequency ABN:** Checked checkbox.

HOW TO BRIDGE A PATIENT

1. Click on bridge patient menu
2. Enter patient name, click search
3. Select patient then start the order

The screenshot shows a software interface with a top navigation bar containing 'RESULTS', 'ORDERS', and 'PATIENTS' dropdown menus, and a search icon labeled 'CARE EVOLVE'. Below this is a section titled 'Bridge Patient' with a search input field labeled 'Keyword (Chart Number, Last Name or SSN):' and a blue 'Search' button. A message below the input field reads 'Please enter a keyword to search'.
